

Space Technology and Rocketry presents:

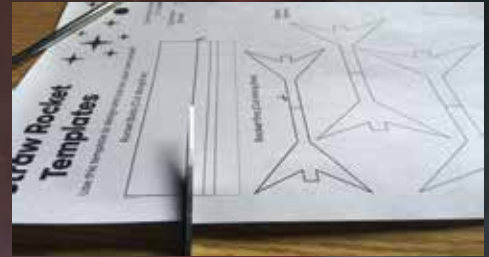

STRAW ROCKETRY

Materials:

Paper
Pencil
Straw
Ruler
Tape
Glue
Scissor
Template

1. Cut out the body of the rocket and decorate

2. Wrap the body along the long side on the straw and tape

3. Cut out the fins of the rocket

4. Tape the fins to the rocket and fold the fins 90 degrees to form a cross shape

5. Close the top of the rocket into a nose cone

6. Launch!
